

AUTOCLEAR HS + 2 PACK

Perfect for small or large areas

Autoclear HS + 2 Pack is a high solids acrylic urethane clearcoat for use over Autobase Plus and Autowave. Designed for baking, Autoclear HS + 2 Pack helps create a lasting glaze finish. At a user-friendly 2:1 mixing ratio, the material may either be used as a conventionally mixed material, or with the Manual Proportioning Unit (MPU). It is perfect for spraying over small or large areas in various temperature ranges.

Autoclear HS + 2 Pack is a high performing clearcoat solution that complies with National Rule specifications.

- Ideal for high production facilities
- Easy mixing ratio of 2:1
- Less buffing
- Useable over both Autobase Plus and Autowave
